EGGER EURODEKOR®

EURODEKOR® Melamine Faced Boards
EURODEKOR® Plus
EURODEKOR® Soffforming Elements

Version January 2006

www.egger.com

CREATING MORE FROM WOOD

Decorative design of the highest standard

EGGER EURODEKOR® Melamine Faced Boards come in a range of colours to coordinate with EUROFORM® Melamine Edging, EGGER Safety Edging, EUROFORM® Laminates and EUROFORM® Laminated Composite Boards. These are now the essential tools for designers, architects and property developers around the world. EGGER EURODEKOR® gives you exceptional scope for design thanks to a coordinated colour system of products. In addition to this, their direct availability ensures that tight deadlines are achievable. In particular, the perfectly reproduced wood decors offering an incredibly natural appearance have contributed to the excellent reputation of EGGER EURODEKOR®.

Customer Focused Decor Activity

In addition to our ongoing decor development of EGGER EURODEKOR® colours and product innovations we also provide comprehensive support to our customers through advice and training. We take part in numerous international exhibitions as well as offering individual advice on decors, supported by detailed trend presentations at our own EGGERZUM in-house exhibition. The different exhibition areas in all our production plants provide an ideal platform for this.

Decor collections for every market

Coordinated collections, that meet all market requirements whilst accounting for regional tastes, are targeted towards country specific trade networks such as architects, shopfitters and furniture manufacturers. Our Global Collection range, which is updated on a continuous basis, is also available to industrial clients all over the world.

If you wish to find out more about our innovations you can access all the decor possibilities online at www.egger.com/global. If you have any further decorative questions, our staff would be happy to give you advice.

EGGER EURODEKOR® Melamine Faced Boards

EURODEKOR® offers numerous creative possibilities using a wide variety of substrate materials, an extensive range of decors and numerous different textures. Melamine edging, safety edging and laminates in matching decors are available in the COORDINATED RANGE OF EGGER EURODEKOR® COLOURS.

EGGER EURODEKOR® Melamine Faced Boards

APPLICATIONS/AREAS OF USE

EGGER EURODEKOR® Melamine Faced Boards are ideally suited for use in all areas of interior fittings and furniture construction:

- Kitchens, bedrooms and bathrooms
- Office furniture
- Hotel and hospitality furnishings
- Shop fitting, exhibition stand construction
- Occasional furniture
- In the education sector and much more

EURODEKOR® Melamine Faced Chipboard

EURODEKOR® Melamine Faced Chipboard is available in a variety of decors. As well as melamine and safety edging, laminates are available in matching colours.

EURODEKOR® MDF

EURODEKOR® MDF combines the outstanding physical properties of FORMline® Medium Density Fibreboard (MDF) with the variety of EGGER decors. In addition to this laminates as well as melamine and safety edging are also available in matching colours for a fully co-ordinated product portfolio.

EURODEKOR® OSB COMBILINE

EURODEKOR® OSB COMBILINE represents an ideal combination of a surface suitable for a decorative finish and high bending strength. The loadbearing coreboard material consists of a strong OSB core (Orientated Strand Board) with FORMline® 2000 Thin MDF on both sides, making it ideal for applying decorative finishes such as melamine paper, foils, veneers and lacquer.

EURODEKOR® Flammex

EURODEKOR® Flammex coreboards guarantee improved fire behaviour and combine design needs and fire safety requirements in a modern material. Due to the scope for applying a decorative finish, the possibilities for use in interior fittings, dividing walls, doors, furniture-making and wall and ceiling panelling are limitless. Certified and approved as EURODEKOR® Flammex to Euroclass B; B1; M1; Class 1 fire protection classifications.

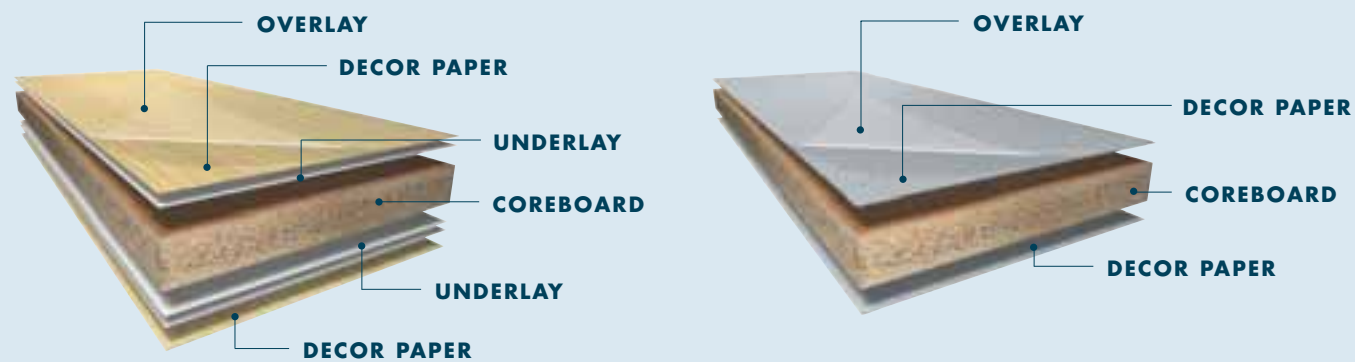

EGGER EURODEKOR® Plus Melamine Faced Boards

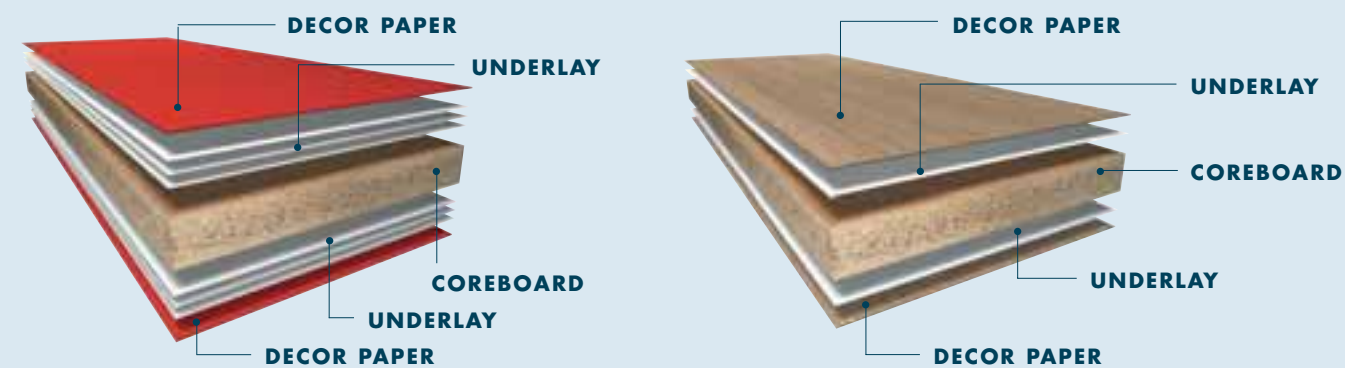

EURODEKOR® Plus offers excellent surface quality due to the multiple coatings applied. This means it has a high abrasion resistance and a perfectly even surface. A variety of coreboards can be used for this product. (EUROSPAN® Rawboard, FORMline® MDF, EUROSTRAND® OSB COMBILINE, EUROSPAN® Flammex)

EURODEKOR® Plus is available in 2 product groups: EURODEKOR® Plus HR (highly abrasion-resistant) and EURODEKOR® Plus ML (multiple layers)

HIGH ABRASION-RESISTANCE

MULTIPLE LAYERS

APPLICATIONS/AREAS OF USE

EURODEKOR® Plus is available with various coreboards. This ensures a product perfectly tailored for the subsequent application:

- EURODEKOR® Plus brings together quality surface finishes and the tried-and-tested properties of EUROSPAN® Rawboard.
- EURODEKOR® Plus MDF: combines outstanding surface properties with excellent finishing properties.
- EURODEKOR® Plus OSB COMBILINE provides an optimal surface and extremely high bending strength.
- EURODEKOR® Plus Flammex has low flammability and an excellent surface quality.

EGGER EURODEKOR® Plus Melamine Faced Boards

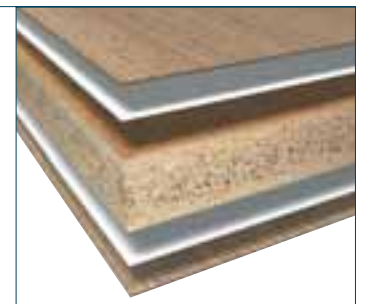

EURODEKOR® Plus HR

Two-sheet composition in which an overlay paper is used in addition to the decor paper. The maximum layer thickness is 0.15 mm. A higher abrasion value is achieved by using overlay paper. Abrasion values in the range of classes 2 to 3A in accordance with EN 14 322 are achieved depending on the layer composition selected.

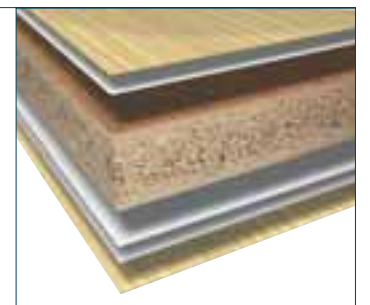

EURODEKOR® Plus ML 02

Two-sheet composition in which an underlay/barrier paper is used in addition to the decor paper. The maximum layer thickness is 0.2 mm.

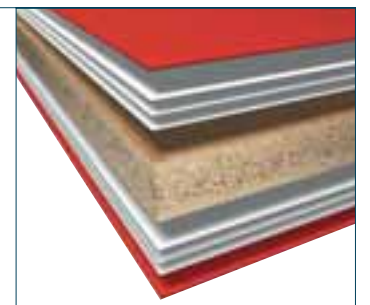

EURODEKOR® Plus ML 03

Multiple sheet composition in which various thicknesses of underlay/barrier paper are used in addition to the decor paper and in which an overlay can also be used for printed decors. The maximum layer thickness, depending on the use, is 0.3 mm. Abrasion values in the range of classes 2 to 3A in accordance with EN 14 322 are achieved depending on the composition selected. In some cases, the coating strength of laminate bonded boards can be achieved although the resulting low density does affect the impact resistance and heat sensitivity.

EURODEKOR® Plus ML 05

Multiple sheet composition in which several underlay/barrier papers are used in addition to the decor paper, meaning that layer thicknesses of up to 1.0 mm are possible.

USES	HR	ML02	ML03	ML05
Carcasses and frontal elements for high-quality interior fittings		●		
Heavy-duty surfaces for use in fronts	●			
Horizontal surfaces – domestic	●			
Horizontal surfaces – public			●	
School desks				●
Laboratory furniture				●
Furniture - care homes and hospitals				●

More detailed information on the availability of loadbearing materials and various compositions at the different production plants can be found at www.egger.com.

EGGER EURODEKOR® Softforming

With EURODEKOR® Softforming elements the sky's the limit, in terms of how creative you wish to be. A huge variety of profiles and edging and surface decors provide an incredible number of options. They are very abrasion resistant, as well as scratch and stain resistant.

EGGER EURODEKOR® Softforming Profile

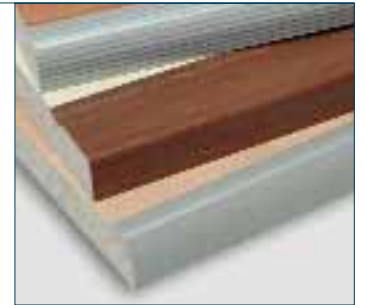

APPLICATIONS/AREAS OF USE

EGGER EURODEKOR® Softforming Elements offer an impressive selection of decors and profiles as well as individual design options. They are ideal for use in a wide variety of applications, for example:

- For making children's furniture
- Office furniture
- Kitchen fronts etc.

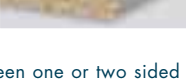

EURODEKOR® Softforming Elements

EURODEKOR® Softforming elements are made from melamine faced chipboard, with different edge profiles and edging decors.

EURODEKOR® Softforming Elements MDF

EURODEKOR® Softforming MDF elements are melamine faced FORMline® MDF boards, with a wide range of edge profiles and edging decors. The finely structured coreboard ensures very narrow radii and an unbeatable smoothness to the edge.

Descripton	Profile	Thickness (mm)				Application
		15-19	18	19	22	
SLE 190			●	●		Frontal elements, Cornice
SLE 196		●				Frontal elements, Cornice
SLE 240		●				Panels, Vertical shelf supports, Cornice
SLE 300		●				Frontal elements, Cornice
SLE 390		●				Frontal elements
SLE 420		●				Panels, Vertical shelf supports, Cornice, Frontal elements
SLE 501		●				Frontal elements
SLE 513			●			Table tops and Cornice
SLE 711					●	Vertical shelf supports, Cornice

You can choose between one or two sided profiles and whether you wish to have the rear edge milled or finished in a straight edge. Radii, profiles and dimensions that differ from the standard versions will be assessed in terms of their technical and economic feasibility.

EGGER EURODEKOR® Softforming elements are available either as standard production articles in standard lengths, widths and dimensions specified by the customer or tailor-made, prefabricated furniture components.

ST9 Perfect Matt

ST15 Office

ST21 Woodline

ST2 Diamond

SEEING IS ONLY HALF THE EXPERIENCE ...

The right choice of surface is a vital decision with modern designs. It is not just the appearance of a decor that is crucial, but also the texture that the customer experiences. Taking this into account, we offer a wide range of varied surfaces and recommend the best combination depending on the decor and how it is used.

Texture	Texture Description	Areas of use
SM Semi Matt	Smooth, medium gloss level	Solid colours, primarily white
ST2 Diamond	Grainy structure, medium gloss level	Solid colours, metallic colours
ST3 Forest	Striped, glossy wood pore effect	Solid colours, woodgrain decors
ST9 Perfect Matt	Fine, very matt surface to provide a veneer-like appearance	Woodgrain decors, also some solid colours
ST15 Office	Medium-fine surface effect, medium gloss level	All types of decor
ST21 Woodline	Striped, deep brushed surface effect	Softwood decors, also suitable for some fantasy decors
ST24 Finepore	Fine wood pore effect, medium gloss level	Woodgrain decors
ST95 Crystal	Grainy structure with matt-gloss appearance	Solid colours and metallic colours

The best surface quality is guaranteed due to the ongoing development of realistic reproductions, the high quality of the materials used and the highest precision of the available technologies. This ongoing development involves matching the appearance and texture of the decors with increasing accuracy to the characteristics of the original materials.

EGGER | EURODEKOR® Coordinated Colour Range

As with a modular system, all EGGER decorative products complement one another to create a complete coordinated solution. An extensive range of coordinated decors and materials across the product range opens up countless design possibilities for customers and partners alike.

EUROFORM® Melamine Edging

EUROFORM® Melamine Edging either with or without hot-melt adhesive coating, provides a decorative finish for all boards.

Available in all decors and structures in the GLOBAL COLLECTION.

EGGER Safety Edging

EGGER Safety Edging rounds off edges cleanly and ensures long tool service life despite highly shock-resistant materials.

Available in many decors in the GLOBAL COLLECTION.

EUROFORM® Laminates

EGGER EUROFORM® Laminates are decorative based sheets produced using a continuous method. They are extremely robust and resistant to abrasion and impact whilst they also meet high design standards.

EUROFORM® Laminated Composite Boards

EUROFORM® Laminated Composite Boards can be offered with EUROSPAN® Rawboards, FORMline® MDF, EUROSTRAND® OSB COMBILINE and EUROSPAN® Flammex Boards as coreboards coated with laminate on both sides.

Available in the same range of decors as the EURODEKOR® collection.
